
One trajectory throughout · 299 calls / 598 five-day records · 365.25 days/year
Trials 0–4 and 7–8: 1 core, 8 CPU threads. Trials 5–6: 2 threads/rank; 1 → 4 cores.
Trial 6 splits two blocks; trial 8 segments 17 UNet layers on ONE core. Combined multicore + segmentation untested.
Compilation/warmup excluded. Trial 8 uses corrected longitude wrap; one-call checked, forecast quality unverified.
